## Tools & supplies students should bring:

Rotary power carver - My personal preference, for what I do, is a micro motor.

A couple of suggestions are the Mastercarver Micro-Pro Champion, found at <u>www.woodcarverssupply.com</u> and the Ram iCube or Ram Power 45 found at <u>www.mdiwoodcarvers.com</u>. No need to get the foot control. If you are planning to bring a flex-shaft, such as Foredom, **please check your maximum rpms**. Some of the older ones only go up to 18,000 rpms. This **will** cause you problems. The majority of my carving is done in the 25,000 – 35,000 rpm range. Also, if you bring a flex-shaft I would recommend bringing a portable tool stand.

## Be sure to have a 3/32" collet for your carver.

• Contact me if you need help or have questions but I highly recommend going with the micro motor.

<u>**Carving Burrs**</u> – Please bring the following burrs plus your favorites. They can be found at MDI Woodcarvers Supply www.mdiwoodcarvers.com 1-800-866-5728

stump cutter (you will need 2)	#20-B5	\$8.25 ea.
mini stump cutters	# 21-SET36	\$5.25
and	# 21-SET39	\$5.25
Diamond cutter set	#17-20S	\$7.50
Saburr burr	# 37- 3FSMY (fine)	\$14.50
Super Course Ruby	#15-SC05 `´´	\$10.50

**Turned Disc** - You should bring a turned dome shaped disc about 6"-7" in diameter. This must be dry wood not green. Cherry is my preferred choice, but you mainly want a nice tight grain wood with no figure. Avoid woods with open grain or ones that may cause allergic reactions. This will enable you to practice working on a curved surface, before attempting one of your turnings.

1 ¼" thick by about 7" diameter dome shape disc works well. I make mine out of kiln dry board stock. (I may have some for purchase if you don't get around to making one)

## Woodburner – If you have one

<u>Also Bring</u>: dust mask, ear plugs, old toothbrush or paint brush for dust and pencil & paper. If you need magnifiers for detail work, don't forget to bring those. A task light is very helpful, also, a cushion to sit on. It's a long day of sitting!
